

## Project Manager

Joining Spirit Technologies means taking up tomorrow's technological challenges as part of a stimulating, creative and resolutely innovative team. Every year, we invest 8,000 hours in research and development, propelling our collaborations with leaders in high value-added sectors such as Nuclear, Space, Defence and many others, in Europe and around the world.

When you join Spirit Technologies, you'll benefit from ongoing support to develop your skills, thanks to a company that values the skills of its employees and has an ambitious CSR policy, taking care of both its teams and its local communities.

Spirit Technologies cultivates the spirit of conviviality that is so characteristic of the South of France, both internally and through our partnerships and ecosystem.

To join Spirit Technologies means embracing a spirit of excellence, where know-how is combined to bring to fruition, from design to integration, more than a hundred innovative projects a year.
